Keeping Alaska Students and Teachers Connected

Back-to-school season is always exciting, maybe a little nerve-wracking. But this year has taken uncertainty to a whole new level. At GCI, we get it - this year hasn't been easy on anyone. We're here to help how we can, and let's face it, balancing kids at home with working from home, you probably need a little extra data, right?

First Month On Us

Stay connected to all the video calls, homework assignments, and more with Unlimited Mobile and No Worries Internet. We'll cover the first month of each for new customers.

iPad for \$0 down, just \$7.20/mo.

When you need an extra screen, we've got you covered. We'll cover the first \$200 on iPad when you add a new mobile line. That means you pay just \$7.20/mo. for the latest iPad.

Apple TV On Us

Keep the kids entertained while you finish up your WFH day or have something to enjoy yourself after a day of playing teacher. We're offering Apple TV for \$0 as a special thanks to all internet customers.

Double Unlimited

Did you know that when your family has GCI Mobile, you qualify for Unlimited 1 Gig internet at home for just \$99? Never worry about your data or connectivity again.

School District Partnerships

We've partnered with select Alaska school districts to ensure students have unlimited access to education content. Check with your school to learn about educational resources they may be providing in partnership with GCI.
