GCI Managed Video Conferencing

FOCUS ON YOUR MEETING, NOT THE TECHNOLOGY

GCI's Managed Video Conferencing is flexible to meet your specific needs, highly scalable and offers reliable video conferencing with available end-to-end management and support.

Choose from a cloud-hosted or room based video conferencing system designed to support everything from ad-hoc virtual meetings to enterprise video conferences with flexible pricing models to fit your unique business needs. Support today's changing professional environment with the ability to access your meeting anywhere, from any device – whether it's a room system, your PC, or a mobile phone or tablet.

24/7/365 DEDICATED SUPPORT

GCI is based in the Pacific Northwest, and so are our call centers and service teams. You get dedicated support from GCI's Business Technical Support, in addition to a support team that tracks and event manages each call until your issue is resolved.
