

TERRA Product Descriptions & Pricing

NETWORK DESCRIPTION:

TERRA is a middle mile terrestrial interstate broadband network connecting Anchorage with the TERRA communities. GCI provides broadband transport services including IP/MPLS and/or Layer Two Ethernet over MPLS service over the TERRA network.

TERRA NETWORK LOCATIONS:

Customers may order service delivery at any of the following TERRA network locations.

AKIACHAK	GRAYLING	MERTARVIK	QUINHAGAK
AKIAK	HOLY CROSS	MINTO	RED DOG MINE
ALAKANUK	HOOPER BAY	MOUNTAIN VILLAGE	RUBY
ALEKNAGIK	IGIUGIG	NAKNEK	RUSSIAN MISSION
ANCHORAGE	ILLIAMNA	NAPAKIAK	SAINT MARY'S
ANIAK	KASIGLUK	NAPASKIAK	SAINT MICHAEL
ANVIK	KIANA	NEW STUYAHOK	SCAMMON BAY
ATMAUTLUAK	KING SALMON	NEWHALEN	SELEWIK
BETHEL	KIPNUK	NEWTOK	SHAGELUK
BUCKLAND	KOKHANOK	NIGHTMUTE	SHAKTOOLIK
CHEFORNAK	KOLIGANEK	NOATAK	SOUTH NAKNEK
CHEVAK	KONGIGANAK	NOME	STEBBINS
CHUATHBALUK	KOTZEBUE	NONDALTON	TANANA
CLARKS POINT	KOYUK	NOORVIK	TOGIAK
DILLINGHAM	KWETHLUK	NUNAM IQUA	TOKSOOK BAY
EEK	KWIGILLINGOK	NUNAPITCHUK	TULUKSAK
EKWOK	LEVELOCK	OSCARVILLE	TUNTUTULIAK
ELIM	LOWER KALSKAG	PEDRO BAY	TUNUNAK
EMMONAK	MANLEY	PILOT STATION	TWIN HILLS
GALENA	MANOKOTAK	PITKA'S POINT	UNALAKLEET
GOLOVIN	MARSHALL	PLATINUM	UPPER KALSKAG
GOODNEWS BAY	MEKORYUK	PORT ALSWORTH	WHITE MOUNTAIN

Additional locations may be added in the future and will be offered under the same terms and conditions and included in availability under existing service contracts, as the original locations.

The customer is responsible for transport from the TERRA network location premises to the customer premise.

ETHERNET SERVICE:

Ethernet Network Service Description: Customers have full symmetrical access to the configured capacity with availability of 99.95% or no greater than 1,296 seconds of outage per month (the "Availability Standards"). Ethernet Service is designed to provide point-to-point or point-to-multi-point connectivity. Customers may order multiple networks, including multiple hub and edge port pairs for point-to-point service, or hub to multiple edge port combinations, within their overall volume commitment. Only one hub port may be ordered per network.

Ethernet Network Service is postalized; the price per port does not vary depending on distance. No additional usage charges apply.

SERVICE LEVELS FOR ETHERNET SERVICE:

- Round trip latency not to exceed 50 milliseconds^{1,2}
- Packet loss not to exceed 0.1% averaged over 30 days²
- Jitter not to exceed 20 milliseconds on average over 30 days²

TERMS & CONDITIONS FOR ETHERNET SERVICE:

1. The provision of services over TERRA will be subject to a contract between GCI and customer. In the event of a conflict between these Terms and Conditions and the customer contract, the contract will govern.
2. Subject to availability, GCI shall provide to the customer IP/MPLS services and/or Layer 2 Ethernet over MPLS service among TERRA locations.
3. An Ethernet service network shall consist of one hub port at a single location and one or more Edge Port(s) at one or more different locations.
4. Aggregate Ethernet hub capacity and aggregate Ethernet edge capacity each must be ordered in increments of one Mbps, although the capacity may be provisioned in increments of less than one Mbps at individual location(s).
5. The aggregate Ethernet capacity of the hub port in a service network shall equal the aggregate Ethernet capacity of the edge ports in a service network.
6. One or more service networks may be ordered under a single contract.

¹The network is designed to limit round trip delay to not exceed 700 milliseconds during times of satellite restoration.

²Averaged over the period of thirty days. Measured using ITU-T Y.1731 standard tests from TERRA POP to TERRA POP

7. During the service term and subject to any applicable conditions in the customer's contract, customer shall be entitled to change the allocation of the aggregate Ethernet Service hub and edge capacity (including the modification or elimination of existing Service Networks and the creation of new Service Networks) among TERRA Locations so long as such reallocation:
 - (a) Meets the requirements of paragraphs 3, 4, and 5 above.
 - (b) In the sole judgment and discretion of GCI, is technically feasible and commercially reasonable, taking into account, among other factors, TERRA's available capacity.
 - (c) Does not have the effect of reducing the total Monthly Recurring Charges set forth in customer's service contract.
8. Additional capacity may be added during the term of the contract, subject to the requirements in paragraphs 3, 4 and 5. This additional capacity must be maintained for the remaining duration of the contract term and will be priced at the rates specified in the customer contract.
9. Termination penalties pursuant to a contract shall not apply if the customer replaces a current contract with a new contract that has a service term greater than or equal to the remaining term of service under the current contract, and having monthly charges under the new contract greater than or equal to the monthly charges under the current contract. If two or more current contracts are replaced with a single contract, the new contract must have a term of service greater than or equal to the longest remaining term of service in any of the contracts being replaced, and the monthly charges under the new contract must be greater than or equal to the aggregate monthly charges in all contracts being replaced.
10. Pricing shall be determined in accordance with the pricing tables below as follows:
 - (a) Totaling all of the hub capacity in Tables 1 and 2 ordered to be or currently being delivered to an end customer in increments of 1 Mbps or greater under one or more contracts and applying the hub pricing rate in each Table to new services based on the aggregate capacity and the term of the contract under which the service is purchased. Ports less than 1 Mbps receive only term discounts and are not included in calculating capacity discounts.
 - (b) Totaling all of the edge capacity in Tables 1 and 2 ordered to be or currently being delivered to an end customer in increments of 1 Mbps or greater under one or more contracts and applying the edge pricing rate in each Table to new services based on the aggregate capacity and the term of the contract under which the service is purchased. Ports less than 1 Mbps receive only term discounts and are not included in calculating capacity discounts.
 - (c) Where additional capacity ordered to be delivered to an end customer results in the end customer entering into a new aggregate capacity rate band in Table 1 or 2, if specified in the customer contract and subject to any applicable conditions therein, GCI will re-rate all existing services to the then-current pricing for that rate band.
 - (d) For purposes of this section, "end customer" refers to the entity receiving
11. Customer may purchase up to 10 Mbps of hub and edge Ethernet capacity among TERRA locations on a month-to-month basis. In the event that the customer desires to terminate a TERRA month-to-month service, they may do so without penalty by providing GCI thirty days advance written notice.

12. Service restoration

- (a) In the event of an outage at a TERRA network location where a customer has ordered service, service will be restored where possible via pre-designated satellite stations;
- (b) Service may be reconfigured within the TERRA network as available to re-route traffic. Network reconfiguration for restoration purposes in the event of service outage will be arranged on an individual case basis.

TERRA ETHERNET PRICING TABLES:

MONTHLY RECURRING CHARGES (MRCs):

HUB PORT/EDGE PORT (MONTHLY RECURRING CHARGES PER 1 MBPS OF SERVICE)

TABLE 1 -
TERRA SERVICES BETWEEN ANCHORAGE AND A REGIONAL CENTER (BETHEL, DILLINGHAM, KOTZEBUE, KING SALMON & NOME)

Aggregate Capacity	Hub Port Component per 1 Mbps					Edge Port Component per 1 Mbps				
	1 Year	3 Year	5 Year	10 Year	25 Year	1 Year	3 Year	5 Year	10 Year	25 Year
1-100 Mbps	\$778	\$691	\$605	\$518	\$346	\$6,610	\$5,875	\$5,141	\$4,406	\$2,938
101-150 Mbps	\$761	\$677	\$592	\$508	\$338	\$6,472	\$5,753	\$5,034	\$4,315	\$2,876
151-200 Mbps	\$729	\$648	\$567	\$486	\$324	\$6,197	\$5,508	\$4,820	\$4,131	\$2,754
201-250 Mbps	\$689	\$612	\$536	\$459	\$306	\$5,853	\$5,202	\$4,552	\$3,902	\$2,601
251-300 Mbps	\$608	\$540	\$473	\$405	\$270	\$5,164	\$4,590	\$4,017	\$3,443	\$2,295
301-400 Mbps	\$486	\$432	\$378	\$324	\$216	\$4,131	\$3,672	\$3,213	\$2,754	\$1,836
400+ Mbps	\$446	\$396	\$347	\$297	\$216	\$3,787	\$3,366	\$2,946	\$2,525	\$1,836

Hub month-to-month pricing (per 1 Mbps) \$864
Edge port month-to-month pricing (per 1 Mbps) \$7,344

TABLE 2 -
TERRA SERVICES BETWEEN ALL TERRA SERVICE LOCATIONS OTHER THAN THOSE DESCRIBED IN TABLE 1

Aggregate Capacity	Hub Port Component per 1 Mbps					Edge Port Component per 1 Mbps				
	1 Year	3 Year	5 Year	10 Year	25 Year	1 Year	3 Year	5 Year	10 Year	25 Year
1-100 Mbps	\$864	\$768	\$672	\$576	\$384	\$7,344	\$6,528	\$5,712	\$4,896	\$3,264
101-150 Mbps	\$846	\$752	\$658	\$564	\$376	\$7,191	\$6,392	\$5,593	\$4,794	\$3,196
151-200 Mbps	\$810	\$720	\$630	\$540	\$360	\$6,885	\$6,120	\$5,355	\$4,590	\$3,060
201-250 Mbps	\$765	\$680	\$595	\$510	\$340	\$6,503	\$5,780	\$5,058	\$4,335	\$2,890
251-300 Mbps	\$675	\$600	\$525	\$450	\$300	\$5,738	\$5,100	\$4,463	\$3,825	\$2,550
301-400 Mbps	\$540	\$480	\$420	\$360	\$240	\$4,590	\$4,080	\$3,570	\$3,060	\$2,040
400+ Mbps	\$495	\$440	\$385	\$330	\$240	\$4,208	\$3,740	\$3,273	\$2,805	\$2,040

Hub month-to-month pricing (per 1 Mbps) \$960
Edge port month-to-month pricing (per 1 Mbps) \$8,160

CRITICAL COMMUNITY FACILITIES MINIMUM DISCOUNT:

For the purposes of TERRA pricing, Critical Community Facilities (“CCF”) are public facilities that provide community services essential for supporting the safety, health and well-being of residents. CCFs include, but are not limited to, emergency response, public safety, hospitals, health clinics, libraries and schools.

In lieu of the standard term and volume discounts available in Table 1 and Table 2 above, CCFs may elect to receive a 25% discount off the TERRA published month-to-month rates.

NON-RECURRING CHARGES (NRC):

No fee shall be charged to initially provision service on TERRA. Subsequently, an NRC of \$95.00 (per location) shall be charged for any Service Network change.

PORT EXTENSION CHARGES:

A Port Extension provides a connection between a TERRA Port and a customer’s premises at the same TERRA location. See “Port Extensions” under Other Terms and Conditions for a full description.

Port Extension Capacity	NRC	MRC
1 to 10 Mbps	ICB	\$300 per Port Extension
11 to 20 Mbps	ICB	\$350 per Port Extension
21 to 30 Mbps	ICB	\$400 per Port Extension
31 to 40 Mbps	ICB	\$420 per Port Extension
41 to 100 Mbps	ICB	\$450 per Port Extension
Rate applies to an individual Port Extension.		
Mbps are measured at the specific port where the Port Extension is ordered, and not aggregated across multiple Port Extensions.		
Port Extensions are location-specific and may not be re-located.		

OTHER TERMS AND CONDITIONS:

Other charges may be incurred for conditioning, modems, etc. The customer is responsible for paying actual charges determined at the time of installation. The customer is responsible for all applicable charges and surcharges imposed by other carriers for local connections.

PORT EXTENSIONS:

TERRA may provide a Port Extension on its facilities where available to a customer premises within the same local exchange area as the TERRA location where the customer has purchased a Port. Port Extensions include transport and termination equipment at the customer premises. Port Extension charges are in addition to the Port charge at the TERRA endpoint and include non-recurring charges and monthly recurring charges. Port Extensions outside a local exchange area will be considered on an individual case basis and recurring and non-recurring charges may vary.

TERMINATION:

Following the expiration of the contract-specified service term, services will continue on a month-to-month basis until such time that GCI receives written notice of termination, which shall be provided to GCI by the customer no less than thirty (30) days prior to the requested termination date.

CREDIT:

A cash deposit or commercial letter of credit may be required based on a customer's financial qualifications and the combined value of all payments required under the Service Order.

LIQUIDATED DAMAGES:

Failure to honor the Capacity/Term Commitments will result in damages to GCI. Liquidated damages will be calculated in accordance with the following formula:

- (a) The stream of MRCs from the date that the customer fails to honor the Capacity/Term Commitments (the "Breach Date") through the date the Term ends shall be discounted to present value, using a discount rate of 10%.
- (b) Any payments owed by the customer prior to the Breach Date shall be added to the amount calculated above.
- (c) Any payments received from the customer after the Breach Date shall be subtracted from the amount calculated under this section.
- (d) The amount calculated under this section shall be the liquidated damages owed by customer to GCI.

LOCAL ACCESS CIRCUITS:

Customer shall be responsible for arranging and paying for local telephone or other tail circuit facilities to connect the TERRA location POP to the premises of the customer.
