Tariff (C) 7.1 BUSINESS AND RESIDENCE LOCAL ACCESS RATES (Cont'd) A. Service Description (Cont'd) 1a. Digital Subscriber Service (Cont'd) Restrictions A customer must also not switch any portion of their local service to another provider, block service or discontinue their service during the period covered by their term of service commitment. A customer who has ordered a term of service commitment but who discontinues service before expiration of agreed upon term must pay a termination amount equal to the prior 12 months of credit, or if termination occurs before the end of 12 months, equal to the total credit applied to their account under this plan. The customer may discontinue a term of service commitment prior to the expiration of the applicable term without liability when notice of the cancellation is received before the due date of the order for their term of service commitment. Discontinuance of service occurs when a customer is terminated by GCI for non payment or when the customer notifies GCI that the business is no longer doing business within the GCI Serving Area. Telephone number changes for the same business in the same or different location will result in a transfer of the term commitment agreement to the new telephone number or new location.

I. Basic Business Promotion Enhanced I	
Beginning on June 29, 1999 and ending on March 31, 2001, Business Customers who subscribe to GCI for the provision of local service for a one-or two-year Term of Service Commitment, may enroll in this Promotion by completing and returning an enrollment form provided by the Company, or by requesting enrollment during the Business Customer's contact with a Company customer service or marketing representative.	
Under this Promotion, Business Customers receive monthly credits during the Term of Service, beginning with their first full month of service after enrollment, based on the selected Term of Service Commitment. Customers with a 1-year commitment receive a monthly credit equal to 5% of the regulated local monthly recurring charges (excludes taxes, regulatory surcharges, and non-recurring charges). The applicable percentage for the monthly credits that Customers with a 2-year commitment receive is 7.5%. Additionally, Customers enrolled in this Promotion receive a one-time signing gratuity in the amount of \$50.00.	
Business Customers who, after GCI begins providing local service, notify the Company that they want to discontinue the local service prior to the end of their term, or change a portion of their local service to another carrier, or whose service is discontinued by GCI for non-payment, will incur early termination liability in an amount equal to the credits and gratuities received under this Promotion.	
The term served and benefits of this Promotion may be transferred to another telephone number, provided, the new telephone number is under the same business name, and at the same location as the old telephone number.	
This Promotion may not be combined with other discounted special contract services, or term arrangement.

At the end of the initial customer term, the customer has 60-days to select an additional term commitment, or may choose month-to-month rates. If the customer does not enter into a new term of service commitment at the conclusion of the 60-day period they will be charged the month-to-month rates.		(C)
	Additions - After the initial order a customer may elect to add additional ports to an existing <i>Metro Ethernet</i> network. Any such order for additional ports will be subject to a minimum term commitment of 1-year.	((C)
	Network Access Port Charges – Port charges are assessed based on the total number of ports the Customer selects for the term commitment. If a Customer adds ports after the initial order, and that purchase results in eligibility for a lower overall port price, the port prices will be adjusted downward on the next monthly billing after the additional port is in service.

	 Residential and Commercial Structures - Where underground construction is desired where aerial facilities would ordinarily be provided without a construction charge, the following applies: a. Where cable is laid in conduit, the conduit is constructed and maintained at the expense of the customer. Such conduit will be constructed to specifications furnished by the Utility. b. Such underground construction, as specified above, shall be for the exclusive use of the Utility. c. Where direct lay cable is installed, the owner will provide at his expense, the trench and the special backfill and the Utility will place the cable and associated plant. Mobile Home Parks and/or Courts Aerial - the owner of the mobile home park or court is required, at his expense, to provide, install and maintain the poles and anchors necessary for the Utility to run its facilities to the individual customers located in the park or court. The owner of the mobile home park or court will provide the Utility with an easement of not less than five (5) feet wherever the facilities of the Utility are placed. The individual customer living in a mobile home is required, at his expense, to provide, install, and maintain a pole or rise in accordance with the specifications of the Utility. Specifications for this pole or rise may be secured from the Utility's service representative. Underground - The owner of the park or court at his expense digs and backfills a trench to each mobile home space in the park or court, in accordance with Utility specifications. The owner of the park or court at his expense provides, installs and maintains a stub pole or riser at each mobile home space in the park or court.

3.	Underground Construction in Subdivisions in Advance of Service	
	<u>Types of Subdivisions</u> - Where underground distribution plant would normally be provided at the option of the Utility, no construction charges are applicable.	
	Subdividers and developers frequently request the installation of underground distributing plant and service entrances where aerial plant would normally be provided by GCI, in subdivision in advance of telephone service. In connection with such requests, subdivisions are generally classified as follows:	
	<u>Type 1</u> - Subdivisions that are laid out and houses built on every lot by the developer on a mass production basis.	
	<u>Type 2</u> - Subdivisions that are laid out by the developer, who builds houses on a few select lots or sells lots to prospective owners or contractors.	
	<u>Type 3</u> - Subdivisions that are laid out by the developer and lots sold individually to prospective owners or contractors.	
	In all three types of subdivisions, the subdivider or builder must agree to: a. Furnish rear and side lot easements as required, and	
	b. Provide a semi-finished final grade for the entire width and length of the easement at such time as it is necessary to install the distributing cable, and	
	c. Subdivider or developer digs and backfills trenches for distribution cable and all service entrances. All trench and backfill requirements will be at no cost to the Utility (applies to Type 1 and 2 subdivisions only), and	
	d. Adhere to the provisions of the National Electrical Safety Code and Utility
