A customer who has ordered a term of service commitment but who discontinues service before expiration of agreed upon term must pay a termination amount equal to the prior 12 months of credit, or if termination occurs before the end of 12 months, equal to the total credit applied to their account under this plan. The customer may discontinue a term of service commitment prior to the expiration of the applicable term without liability when notice of the cancellation is received before the due date of the order for their term of service commitment. Discontinuance of service occurs when a customer is terminated by GCI for non-payment or when the customer notifies GCI that the business is no longer doing business within the GCI Serving Area. Telephone number changes for the same business in the same or different location will result in a transfer of the term commitment agreement to the new telephone number or new location.

	<u>Types of Subdivisions</u> - Where underground distribution plant would normally be provided at the option of the Utility, no construction charges are applicable.
	Subdividers and developers frequently request the installation of underground distributing plant and service entrances where aerial plant would normally be provided by GCI, in subdivision in advance of telephone service. In connection with such requests, subdivisions are generally classified as follows:
	<u>Type 1</u> - Subdivisions that are laid out and houses built on every lot by the developer on a mass production basis.
	Type 2 - Subdivisions that are laid out by the developer, who builds houses on a few select lots or sells lots to prospective owners or contractors.
	Type 3 - Subdivisions that are laid out by the developer and lots sold individually to prospective owners or contractors.
	In all three types of subdivisions, the subdivider or builder must agree to: a. Furnish rear and side lot easements as required, and
	b. Provide a semi-finished final grade for the entire width and length of the easement at such time as it is necessary to install the distributing cable, and
