

Long Distance Cable Modem Discount Program

Residential and Business Customers, who subscribe to the Company as their primary interexchange carrier, may enroll in this plan by completing and returning an enrollment form provided by the Company, or by requesting enrollment during the Customer's contact with a Company customer service, or marketing, representative.

Under this plan, Customers are eligible to receive \$15 off the retail price of a Company-Provided cable modem service, with speeds above 364/64, where available. This discount applies as long as the Customer maintains their Company-provided interstate long distance service.

This discount is limited to cable modem service ordered under the same customer account as the Customer's long distance service. Any additional charges and requirements applicable to GCI cable modem service also apply to cable modem service under this plan.

Due to Company facilities availability, this Option is only available in the following Cable Modem service areas: Bethel, Cordova, Homer, Kodiak, and Nome

EFFECTIVE: August 1, 2011
