

BA. Private Line and Frame Relay Data Saver Promotion C

Beginning on February 27, 1999 and ending on December 31, 1999, new Private Line or Frame Relay Business Customers who subscribe to Company provided services for Interstate message telecommunications service under this Tariff FCC No. 2, and Intrastate message telecommunications service under Company's Tariff APUC No. 419, may enroll in this Promotion by completing and returning an enrollment form provided by the Company, or by requesting enrollment during the Business Customer's contact with a Company customer service or marketing representative.

Under this Promotion, Business Customers with new Company-provided Private Line or Frame Relay service, who commit to a new Term of Service between one and three years and are subscribed to GCI for long distance service (both intrastate and interstate telecommunication services), receive a credit equal to the monthly recurring charges for one month of such Private Line or Frame Relay service. The credit is applied on the month following the completion of each year of service (e.g., on the 13th, 25th, and 37th months), for the amount that would have been due on such month(s). Total yearly credits are limited to \$15,000 per Business Customer.

In the event the Business Customer discontinues its Company-provided services for Interstate message telecommunications service or Intrastate message telecommunications service prior to end of the Term of Service for the Private Line or Frame Relay Service receiving the benefits of this promotion, Customer will be invoiced for an amount equal to the total credits received, and become ineligible for any future benefits under this Promotion. Unless explicitly specified elsewhere in this tariff, this Promotion may not be combined with any other promotion in this tariff.

EFFECTIVE: September 6, 1999
