Build the Business Network of the Future

Understand how GCI’s suite of business services work together to provide an enterprise-grade solution with best-in-class security, location flexibility, and scalability.

One **Managed Firewall** and an internet connection will reliably support your entire organization with centralized management and the support of GCI’s certified security experts.

Add a single shared **Dedicated Internet Access** connection to provide secure, dependable, high-speed access to the Internet.

**Advantage IP** and **Data Center Colocation** services enable you to take advantage of a secure and scalable location for your business applications and data, and avoid the cost and constraints of building on-premise. This provides the flexibility to move offices or expand facilities without disrupting your critical data operations.

About GCI: GCI provides data, wireless, video, voice and managed services to consumer and business customers throughout Alaska and nationwide. Headquartered in Alaska, GCI has delivered services for nearly 40 years to some of the most remote communities and in some of the most challenging conditions in North America. Learn more about GCI at www.gci.com. GCI is a wholly owned subsidiary of GCI Liberty, Inc. (Nasdaq: GLIBA, GLIBP). Learn more about GCI Liberty at www.gciliberty.com.
